

Athens Grow Green

ACC Commission ★ General Election

SCORECARD

district
1

Charles Carter (D, I) ★★
Although his answers to our questionnaire indicate that he supports Grow Green's positions on land use issues, Charles Carter's voting record is at odds with Grow Green's goals. He did introduce the first significant positive amendment to the Zoning ordinance.

James Garland (R) ★
James Garland's positions consistently contradict those of Grow Green. In addition, his answers to our questionnaire suggest a lack of understanding of issues such as TDRs and greenspace protection.

district
5

Hugh Logan (I,I) 0
Hugh Logan's score based on his voting record is ZERO. He has consistently promoted sprawl development and favored development over protection of natural resources and neighborhoods. He did not return the questionnaire.

David Lynn (D) ★★★★★
David Lynn's answers to the questionnaire indicate that he shares Grow Green's objectives, that he understands the issues and the needs of District 5 residents, and that he has a vision for the community to guide his decision-making. His experience as a planner and as co-chair of Citizens for Healthy Neighborhoods suggests that he will be an effective commissioner.

district
3

George Maxwell (D) ★★★★★
George Maxwell's answers to our questions indicate that he shares most of Grow Green's objectives. He has clearly taken a stand in favor of community and quality of life.

Sarah Nell Robinson (R)
Did not return the questionnaire.

district
7

Bill Bushnell (R) Did not return the questionnaire.

Kathy Hoard (D) ★★★★★
Kathy Hoard's answers show that she supports Grow Green's goals, she understands the issues and the particular needs of her district, that she is open to exploring creative solutions, and that she has a vision for ACC. Her past experience indicates that she will be an effective commissioner.

Ed Vaughan (G) ★★★★★
Ed Vaughan is in close agreement with Grow Green's principles and his written responses to our questions show that he has a deep understanding of the issues critical to ACC.

VOTE NOV 5!

YOUR VOTE COUNTS

In September, the voters of Athens-Clarke County elected Heidi Davison mayor based on her platform of open, inclusive government.

On Nov. 5 we have the chance to solidify that victory. We have the chance to elect a slate of progressive candidates who share our vision for Athens: a community with healthy neighborhoods, clean air and water, protected open space, high-quality jobs, and decent, stable housing for our workforce.

Perhaps most important, these candidates believe in the importance of citizen involvement in the decisions that affect our community.

It's time to elect leaders who will listen. It's time to elect leaders who will put the interests of the *residents* of Athens-Clarke County first.

but only if every one of us votes!

We can change things for the better ...

How we arrived at our ratings: Grow Green mailed each candidate a questionnaire on these issues, and also requested biographies of the challengers. For incumbents, scores were primarily based on their voting and action record, as well as their questionnaire responses, if any. For challengers, evaluations were based on questionnaire answers and background and experience.

The mission of the Athens Grow Green Coalition is to promote responsible community development and growth management policies and practices that protect natural resources, prevent sprawl, maintain a healthy economy, and preserve a high quality of life for all in the Athens region.
